

ABOUT

WOODCHUCK USA is an innovative wood products manufacturer based in Minneapolis, Minnesota. It was founded in 2012 by Ben VandenWymelenberg, after breaking his phone and applying a wood sticker to hold it together. This idea that began with phone cases expanded into the thousands of products that are used for corporate and consumer gifting today.

WOODCHUCK USA was founded with a simple mission: "Bring nature back to people, jobs back to America, and quality back to products." At WOODCHUCK, we strive to support businesses and stores in providing their employees and customers with a memorable gifting experience every time they purchase a WOODCHUCK USA product.

To further the WOODCHUCK

USA mission, one tree is planted for every product sold. Each product includes a 'BUY ONE. PLANT ONE.®' code that allows customers to locate their tree and see the impact that they are making on reforestation efforts all over the world. When you buy from WOODCHUCK USA, you join a community of people helping reforest the planet.

We look forward to growing our brand with all of our partners. Whether you are a large brand or small boutique, we appreciate your support and welcome you to the community of planting partners that share our vision of a better tomorrow.

BUY ONE. PLANT ONE.®

The 'BUY ONE. PLANT ONE.®' program is an essential part of the WOODCHUCK USA brand. Since it began in 2016, WOODCHUCK USA has planted a tree for every product sold. In addition to supporting reforestation, these plant sites support communities with jobs and educational programming. WOODCHUCK USA has planted on six continents and traveled to Antarctica to support environmental responsibility with global thought leaders. The 'BUY ONE. PLANT ONE.®' program is much more than a marketing campaign. It is a group of businesses, adventurers, and outdoor lovers that seek to share their values with individuals all over the world.

As a means to share the 'BUY ONE. PLANT ONE.®' story, and connect our planting community with the plant sites, we have developed custom codes that correspond with each tree planted. These codes are provided with each product sold, which allows customers to log onto the WOODCHUCK USA website and locate their tree.

WOODCHUCK USA Classic Journals are a perfect bedside journal or office centerpiece. They sell at approximately the same rate as the spiral journals, but are often recognized as being more unique. The bookmark makes this a great option for writing a few notes, marking your place, and returning to your thoughts at a later time.

Dimensions: 6" Wide x 9" High x 1" Deep

Hint:

The State Inlay version of the classic journal is Cedar with a Birch Inlay. This two-tone look is always a favorite. The classic journal has a Cork option, which is our newest material. Cork is not available as a spiral journal.
